Rjasthan High Court Floats Four Paperless Courts

On 02.11.2020, Rajasthan High Court taking a giant stride towards digitalization and paperless functioning of Courts started four paperless courts at the High Court level, i.e. two at Jodhpur & Jaipur for hearing bail matters. The Computer Cell of the Rajasthan High Court

developed an in-house peripheral module for the paperless Court under the High Court Steering Committee's guidance. The periphery software provides separate sub-modules/logins for Hon'ble Judges, Court Masters, Registry Officers, Section In-charge, dealing clerks, Scanning Agency etc., with facilities and functionalities the

individual requirements for management and use of the paperless Module. Under this paperless Module, all the newly filed bail matters and documents are scanned and digitized at the filing counter. A detailed and exhaustive bookmarking is done before uploading the PDF files in DMS. Registry Officers, Section in-charges and Scanning Agency can supervise and manage the entire process through specialized sub-modules /logins. Cause-List Programme is linked with the paperless Module, and the files are automatically arranged as per cause list. Hon'ble Judges can access the soft copy of files listed in cause list through their dedicated logins from anywhere, including the courtroom, residence office, and chambers. Facilities to save encrypted notes are also provided for judges. A facility for viewing all the connected/tagged matters alongside the main file is also available.

Similarly, Court Masters are provided with access to the soft copy of files from their logins. Dealing Clerks can insert, append and bookmark the newly filed documents or newly generated pages and automatically place them according to index and pagination through their logins. They can also perform the task of tagging similar files.
